To order, please sign your name on a **blank white sheet of paper** as you would like it to appear on the stamp. Don't be concerned about the size - we will resize to fit the space you checked (above). For a bold signature, sign with a thick pen, for regular, sign with a regular pen. Please sign in **Black or Dark Blue Ink**. Liquid ink pens usually produce a more solid, clearer signature than a ballpoint. We need to scan your clear original signature in order to make a good signature stamp, or you can scan it and email to us and also fax us this completed order form.

We will size your signature to fit the stamp size you choose. You can mail us this order form, along with your signature. (Faxed signatures will not be used, because they produce very low resolution scans). If you need your stamp faster, you can email us a scan of your signature. Your signature needs to be scanned in 300 dpi or higher resolution and saved in a .jpg, or .tif file. Email your signature to us.
